Buffalo

LET'S HAVE A BEER

With more than 50 breweries, cideries, and distilleries spread across Erie and Niagara Counties, craft beer and spirits are a leading catalyst of our region's renewed growth.

Buffalo has a long history of brewing, tracing back over 200 years, with the city's first brewery believed to have been destroyed during the War of 1812. The business of beer has had its ups and downs since then, and we're happy to report that we're currently experiencing a heady renaissance.

Breweries, distilleries and the hand-crafted beverages they sell have turned former industrial neighborhoods and once overlooked locales into revitalized hotspots. It's something worth celebrating. Maybe with a nice cold one.
